< CAT TOWNHOUSES

The Cat's Inn Townhouses are 28-square-foot enclosures that offer six levels for cats to exercise and play on. Equipped with the finest European hardware and constructed out of solid oak, maple or cherry hardwoods, the townhouses feature built-in ventilation ducts on the sides and near the litter box. The houses can be complemented with a matching four-poster bed and handmade, washable mattress.

HUGX BOWL >

The innovative design of the Hugx bowl facilitates comfortable mealtimes for pets—even those wearing post-operative collars. The aluminum casing has non-slip “paws” to keep the bowl firmly in place while the animal eats.

< THE PET BARRIER

The Pet Barrier utilizes a self-contained, retractable piece of opaque vinyl to create a physical and psychological barrier that keeps small to medium pets from bolting through the door. It takes up minimal space and can be quickly engaged or disengaged.
